

Release following a traffic accident in the Ungheni district

in the morning of October 29, 2025, the rescuers from the center of the country were requested to intervene to carry out extrication work following a traffic accident. The case took place on the R-1 route, at the exit from Pîrlița village, Ungheni district. The call to Service 112 was received at 04:24.

According to the recorded information, the driver of a VAZ car skidded and crashed into a tree. Two fire and rescue crews intervened on the scene. When they arrived, the firemen determined that the driver was stuck inside the car. IGSU employees were able to extract the person, a 37-year-old man. Later, he, in a conscious state, was taken over by the Emergency Medical Service and transported to the district hospital for intensive medical care.

The cause and circumstances of the accident are to be determined by the competent authorities.

According to IGSU, in the last 24 hours rescuers and firefighters intervened in 27 risky situations.
