

The rescuers from the north of the country managed to prevent an explosion of proportions

The rescuers from the north of the country managed to prevent an explosion of proportions

on the night of November 4, 2025, at 01:28, IGSU employees from the north of the country were requested to intervene to extinguish a fire that broke out in a house in the village of Bîrnova, Ocnița district.

Three fire teams were dispatched to the scene. Arriving at the scene, the firefighters determined that the fire involved a house with a total area of approximately 320 m², with five rooms and a room of approximately 200 m², previously used as a warehouse.

during the intervention, IGSU rescuers managed to evacuate two cylinders of propane-butane gas from inside the home affected by the fire, thus preventing the occurrence of a large-scale explosion. According to preliminary data, another cylinder detonated before the intervention of the emergency services teams. No casualties were reported.

as a result of the fire, the housing construction was completely destroyed.

The fire was completely extinguished by 05:23.

The cause and circumstances of the fire are to be established by specialists.
