

Firefighters and rescuers joined the campaign "When we are together, the magic of the holidays is felt"

The winter holidays are about joy, safety and caring for those around you.

in this spirit, the General Inspectorate for Emergency Situations supports the campaign "When we are together, the magic of the holidays is felt", launched by the Ministry of Internal Affairs.

in these meaningful days, firefighters and rescuers will arrive with gifts to several families in the north, center and south of the country, to bring a touch of light, hope and warmth to their homes.

Through these simple but sincere gestures, we want to be closer to people and remind that safety and solidarity unite us, and shared joy is the most beautiful form of celebration.

Be safe! We wish you magical holidays!
