

# Firefighters' intervention to liquidate a dry vegetation fire in Cimișlia district

Firefighters from the south of the country intervened on the afternoon of September 21, 2025 to liquidate a dry vegetation fire produced on the outskirts of Coțangalia, Cimișlia district.

The call to service 112 was received at 4:35 pm. According to the information, the flames included an area of about 3 ha of dry grass. A team of firefighters and rescuers was directed to the scene.

Arriving at the destination, IGSU employees managed to liquidate the fire at 5:40 pm.

The cause and the material damage to the fire is to be established by the relevant organs.

in the context of maintaining the high temperatures for this autumn period, the General Inspectorate for Emergency Situations warns the citizens to be very cautious and to respect the anti-centered rules.

To prevent vegetation fires, firefighters urge the population to comply with the following recommendations:

- Do not set fire to dry vegetation and do not throw cigarette butts, matches or other objects in open spaces and near the wooded areas.
- Do not leave the prayers and the unattended mangides, at the departure they must be completely extinguished.
- Avoid igniting household waste on land surfaces with dry vegetation.
- Permanently monitor children and do not allow them to play with fire to avoid fires and other risk situations.
- Be responsible for your own safety and those around you.

in risk situations, the population is urged to urgently use the 112 Service.
