

Increased firefighters' intervention level on Much Road

UPDATE 23:22

The fire was located at 23:14. The flames are no longer a risk of spread, and the situation is kept under control.

The specialized IGSU teams continue to act on the spot for the complete liquidation of the fire.

on the evening of September 30, 2025 IGSU firefighters intervened according to the increased level of intervention to liquidate a fire that broke out in a warehouse with bituminous construction materials located on Muncetii Road no. 801 from Chisinau.

The call to service 112 was received at 9:03 pm. According to the first information, the roof of the warehouse was filled with flames. For the liquidation of the burning, forces and means according to the increased level of intervention, including the railway train train were directed.

Arriving, at the scene, the firefighters established that the flames fully included the warehouse with an area of over 3000 square meters.

At the moment for the localization and liquidation of the fire, four fighting sectors are created, with 18 intervention vehicles with a number of 70 IGSU employees being trained.

In order to ensure the public order and security of the affected area, police and carabinieri crews also intervene. At the same time, for the operative management of the intervention, the General Staff was established. At the moment, there are no other risks.

Victims have not been reported.
