

Firefighters continue the mission of liquidation of the high level fire on the intervention on Muncești road no.801 in the Capital (Gallery Images)

The firefighters continue the intervention for the liquidation of the fire broke out at a warehouse on the Muncești Road no. 801 from Chisinau. In order to ensure the continuity of the intervention, this morning the actual rotation took place, the reserve guards were lifted on the alert.

At the moment, 19 intervention vehicles are trained with a number of 75 IGSU employees, who work to completely extinguish the fire.

At the same time, on the spot, the experimental anti -centered laboratory of the IGSU carries out, in order to establish the circumstances of the fire. After the complete extinguishing, a static and dynamic research will be carried out, in order to establish the burning outbreak and the most probable cause of the fire.

IGSU informs that there are no premises for concern, the flames have been located, without spreading, and IGSU crews take all actions to completely extinguish the fire.
